Read this extraordinary case :

DECEMBER 25th, 1848. DR. SWAYNE-Dear Sir: Having contracted a breast, difficulty of breathing, I was attended by physicians of the first respectability, but my symptoms become very alarming; there was an abscess formed in my lungs, and made its way thro' my side, and discharged large quantities of poss externally, so that my physician thought the power or functions of one of my lungs were totally destroyed-therefore supposed the case entirely hopeless. This mournful state of things continued for a long time, until I was wasted and worn to a skeleton. I had tried a number of remedies, but all failed to do any good. But there still be.

All my neighbors can testify to the above fact.

CINCINNATI, February 19, 1847. Dr. SWAYNE-This may certify that eleven years ago last fall, I was troubled with the Asthma, which increased upon me in defiance of all the remedies I could hear of, until the year 1839-'40, when I was obliged to leave my native New England for a milder clime, which had the effect to mitigate my sufferings for three or four years, COMMISSION MERCHANT, after which the disease increased until last winter. My sufferings were intense, almost beyond endurance, being obliged to sit up night after night, from inability to sleep in bed.

Last Fall I felt the symptoms earlier than usual in the season, but hearing that Dr. Swayne's Comremedy for Diseases of the Lungs, I immediately commenced its use, and the result was almost immediate relief. For the last six weeks I have not felt the least symptoms of the Asthma, and feel confident that I am well of it, and that I have been cured by the above named medicine.

Yours respectfully, J. W. KNIGHT, Walnut street, between 3d and 4th.

This remedy is one which has proved successful for a long time, and it is universally acknowledged by all who have tried it to be far superior (being so very pleasant to the taste, at the same time effectual,) to any other medicine ever employed in diseases for which it is recommended It not only destroys worms, but it invigorates the whole system. It is harmless in its effects, and the health of the patient is always improved by its use, even when no worms are discovered. Dr Swayne's Vermifuge has met with a degree of favor from the public, which has perhaps never before been accorded to any medicine. It needs no recommendation wherever it is known. Cosmetics, chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty.
